# COVER LETTER

August 22, 2016

Ladies and Gentlemen:

This Statement of Qualifications is submitted in response to the solicitation for Disaster Recovery Debris Management & Removal Services for the City of Central.

We would like to introduce you to our firm, Cycle D&J Emergency Response JV, and respectfully request consideration for the proposed project. Cycle D&J Disaster Response JV is a joint venture between Cycle Construction Co., LLC (Cycle) and D&J Enterprises (D&J), Inc. Both Cycle and D&J are privately held firms specializing in emergency response, civil construction, infrastructure, demolition, and waste management. The principals of both firms began working together in 1979 with the response to Hurricane Frederick in Mobile, AL. Collectively they bring a total of over 100 years' experience in emergency response operations, and have responded to the largest disaster events in the United States.

This joint venture was formed specifically to respond to disaster events by offering clients a multi-disciplined response contractor with significant resources to self-perform the services needed in the aftermath of a disaster. Our firm has significant experience in debris removal, infrastructure repair, dewatering, levee restoration, sewer system bypass pumping, and temporary service logistics. The combination of our firms for emergency response significantly broadens the amount of employees and equipment that can be mobilized on short notice. We have secure bonding capacity and the required financial resources and technical expertise to handle any event. We have an outstanding list of subcontractors and truckers with whom we work closely, and an extensive inventory of in-house equipment.

We are committed to maintaining the highest level of professionalism and safety within the industry and achieving consistent results based upon those standards.

The following person has authority to contractually obligate Cycle D&J Emergency Response JV:

Jonathan Kernion- CEO, Cycle  
6 East Third Street, Kenner, LA 70062  
jkernion@cycleconstruction.com  
Phone: (504)467-1444

James Starr- CEO, D&J  
3945 Lee Rd 10, Auburn, AL  
jimmystarr@bellsouth.net  
Phone: (334) 821-1249

The following person is the contact person for technical/contractual clarifications:

Nathan Kernion-COO, Cycle  
6 East Third Street, Kenner, LA 70062  
nkernion@cycleconstruction.com  
Phone: (504)467-1444

We thank you for your consideration and look forward to joining a successful project team!

Sincerely,

Jonathan N. Kernion

## FINANCIAL PROFILE

Our firm's ability to finance a job to completion has never been in question by any Government entity. Regardless of the City of Central's pay schedule, Cycle D&J Emergency Response JV will pay every sub-contractor and every vendor on the first Friday after we commence work, and every Friday thereafter. In the past, the combined strength of our firm has had enough financial resources to complete numerous large scale jobs for months, without the worry of being paid by the client. Please find below the contact information for the banking institutions we employ and maintain deposits. Please feel free to call any of these banking references. Audited financials can be provided upon request.

# PROPOSER QUALIFICATIONS AND EXPERIENCE

# QUALIFICATIONS AND EXPERIENCE

## PROPOSER QUALIFICATIONS AND EXPERIENCE

### INTRODUCTION & HISTORY

In 1969, Hurricane Camille, one of the most fierce and devastating storms in US history, slammed Corpus Christi, Texas and the Mississippi Gulf Coast and offered D&J Enterprises, then a civil construction company known as Starr & Sons Contractors, the opportunity to expand its operations by responding to the disaster with much needed resources. In 1979, Hurricane Frederic damaged a significant part of Mobile, AL, and Starr & Sons were handling the cleanup. It was here that Jonathan Kernion (President and CEO of Cycle) and Richard and James Starr (Principals of D&J Enterprises) first began their long association. This association has continued through the years working together on various cleanup and restoration efforts including Hurricane Alicia 1983, Hurricane Hugo 1989, Hurricane Katrina 2006, and many more.

In 1987, Richard D. Starr and James L. Starr formed D&J Enterprises to continue the family enterprise and its tradition of excellence. Since that time, D&J has continued to develop and grow its debris management division and has now become one of the leading contractors in its field. Located in Auburn, AL, D&J has never failed to complete a project awarded to us. D&J's Experience is irreproachable and no other disaster contractor can make the following distinctions:

- Forty (40) years of disaster recovery and debris management experience
- Performance in excess of 225 separate disaster response contracts totaling over \$400,000,000
- At times employing as many as 600 employees with 500 subcontractors on a single contract
- Managing as many as 15 contracts simultaneously
- US Army Corps of Engineer – USACE Primary contractor for 14 counties including 4 major municipalities within the State of Texas following Hurricane Rita 2005/2006

During the four decades of disaster recovery and debris management service, D&J's Civil Construction Division has also grown and prospered earning the reputation as one of the top civil contractors in east central Alabama. Two other corporations owned by Richard D. Starr and James L. Starr complement its debris management services: Sand Hill Recycling Center, Inc., a debris storage, separation, reduction and disposal facility that operates year-round providing services to state, county, city and other local private entities since 1997 and doubles as a training facility in the methods of debris separation, reduction, recycling and disposal during periods for personnel prior to the occurrence of a disaster event., and Tara Leasing and Sales, Inc., a heavy equipment company.

In New Orleans, LA in June 2000, Jonathan Kernion along with his sons, Nathan and Kevin Kernion, decided to leave the company they were working with and start a new venture in the same industry and Cycle Construction was born. Since its beginning, Cycle has focused on serving the local community through federal and public works projects in the civil construction and debris management fields. Cycle was an active participant in the rebuilding of New Orleans since Hurricane Katrina performing more contracts for the New Orleans District of the US Army Corps of Engineers than any other contractor. In addition, Cycle was heavily involved in the debris missions during Hurricanes Katrina, Rita, Gustav and many smaller storms and flood events in the area. Cycle is a privately held company with headquarters in Kenner, LA. Our firm has completed an impressive listing of projects through the years. Our previous client listing includes the U.S. Army Corps of Engineers, State of Louisiana Department of Transportation and Development, City of Kenner, City of New Orleans, City of Slidell, Jefferson Parish Council, City of Covington, City of Mandeville, Port of New Orleans, Port of St. Bernard, and Various Other Public Agencies and General Contractors.

Cycle D&J Emergency Response JV is a joint venture between Cycle Construction Co., LLC (Cycle) and D&J Enterprises (D&J), Inc. formed specifically to respond to disaster events by offering clients a multi-disciplined response contractor with significant resources to self-perform the services needed in the aftermath of a disaster. Our firm has significant experience in debris removal, infrastructure repair, dewatering, levee restoration, sewer system bypass pumping, and temporary service logistics. The combination of our firms for emergency response significantly broadens the amount of employees and equipment that can be mobilized on short notice. Additionally, no other response contractor has the ability to self-perform the capacity of work that Cycle D&J Disaster Response JV is able to handle. We have secure bonding capacity and the required financial resources and technical expertise to handle any event.

Over the years our group has developed a vast network of relationships with professionals, subcontractors and suppliers that can muster all the resources needed to respond to a multitude of disasters in a manner that will assist communities with quick response and recovery. Pre-planning for events is a vital and integral part

# QUALIFICATIONS AND EXPERIENCE

of disaster recovery operations; our team incorporates "readiness" into our operation plans for unforeseen events, incorporating the capability to have key personnel on the scene within a few hours of such occurrences. The disaster response path has lead our team through clean-up projects resulting from hurricanes, tornados, floods, ice storms, snow storms and earthquakes, all of which have contributed to the wealth of knowledge and immeasurable experience that continuously improve operations and performance. Our role as a disaster recovery leader year round allows us the privilege to continually train and educate employees and subcontractors for top performance and adherence to ever evolving FEMA guidance and policy.

While disasters are known to have devastating impacts on communities, survivors boast stories of how they also bring people together. The Cycle D&J Disaster Response JV family feels proud to be a part of that reunion.

## **TASKS PERFORMED IN DISASTER RECOVERY AND DEBRIS MANAGEMENT PROJECTS:**

- Phase I – Debris Rights-of-Way Clearance
- Loading and hauling sludge and mud
- Vegetative debris removal from rights-of-way
- C&D debris removal from rights-of-way
- Operating temporary debris storage and reduction sites (TDSRS / DMS)
- Receiving, sorting, screening, separating and recycling debris
- Removal and disposal of hazardous waste
- Vegetative debris reduction by grinding:
  - Advantage: Recyclable and second use options include: paper mill feed stock, boiler fuel, agricultural mulch
- Vegetative debris reduction debris by open burn and air curtain incineration:
  - Advantage: 95% reduction rates are obtainable
- Loading, hauling and final disposal of sorted debris to either LCID or Subtitle D landfills
- Site restoration and re-vegetation
- Sand screening and beach restoration
- Building demolition
- Site preparation for temporary housing
- Base Camp and Temporary Facilities for Local Governments and Response Teams
- Stream clearing and cleaning
- Earthen dam repair
- Infrastructure repair
- Flood clean-up and emergency roofing
- Contract Management
- State of the art Accounting System

## **PAST PERFORMANCE**

Recent Past Performance on the following pages document our knowledge & experience with federal, state & local emergency management agencies; state & federal programs; funding sources & reimbursement processes. This list includes work in the disaster recovery related field for both Cycle and D&J. A detailed list of civil engineering emergency response work is available upon request.

# QUALIFICATIONS AND EXPERIENCE

## PAST PERFORMANCE: CYCLE CONSTRUCTION

### **2016 St. Tammany Parish Floods Cleanup (Cycle) - Covington, LA (\$142,000)**

#### **10,000 CY**

Cycle was activated to cleanup flood debris resulting from the early year river flooding event that affected a significant part of St. Tammany Parish. Cycle mobilized 24 hours of activation and removed river sand deposits, construction and demolition debris, household hazardous waste and white goods.

City of Covington  
Gina Hayes, CAO  
(985) 892-1811  
ghayes@covla.com

### **2015 St. Tammany Parish EWP River Debris Removal (Cycle) – Slidell, LA (\$150,000)**

#### **1,000 CY of floating debris**

Cycle was activated to cleanup marine flood debris blocking water flow in the Pearl River/French Branch. Cycle performed all work from floating plants.

NRCS  
Vicki Supler, Supervisory Contract Specialist  
(318) 473-7645  
Vicki.Supler@la.usda.gov

### **2008 HURRICANE GUSTAV (Cycle) – Kenner, LA (\$655,000)**

#### **42,000 CY**

Removed and disposed of all eligible storm-generated debris from within municipal right-of-way; Set-up, maintained and operated temporary disposal site including separation and reduction by grinding all vegetative debris.

City of Kenner  
Mr. Mike Quigley, Deputy CAO  
mquigley@kenner.la.us

### **2008 HURRICANE GUSTAV (Cycle) – Covington, LA (\$220,000)**

#### **3,000 CY**

Removed and disposed of all eligible storm-generated debris from within municipal right-of-way

City of Covington  
Ms. Candace Watkins, Mayor  
(985) 249-8646

### **2005-06 HURRICANE KATRINA (Cycle) – Jefferson Parish, LA and Covington, LA (\$12,000,000)**

#### **500,000 CY**

Hurricane Katrina has been ranked as the costliest natural disaster in United States history. Katrina caused catastrophic damage and destruction to infrastructure, resources, and commodities. Cycle was able to begin recovery efforts just one day after Katrina made landfall. Cycle Construction Company performed as a major subcontractor to Ashbritt and later to Ceras for the United States Army Corps of Engineers cleanup project. Cycle's designated area was the City of Covington. Cycle's effort included management of all field crews and subcontractors as

# QUALIFICATIONS AND EXPERIENCE

well as coordination with public officials and residents to return the area to pre-storm conditions. Our work included: removal of approximately 500,000 cy of storm generated debris from city right-of-ways and ditches, management of temporary removal and disposal site, recycled, hauled, and disposed of over 200,000 cy of mulch from waste stream, demolished and disposed of numerous hazardous structures, performed Right-of-Entry services for approximately 500 residences, removed and hauled hazardous trees, tree limbs, and stumps

- **New Hanover County, North Carolina** – Removed all vegetative storm debris from right-of-way; Hauled to disposal site
- **Miami Gardens, Florida** – Cleared streets of all vegetative and C&D storm debris; Removed all storm debris from right-of-way; Hauled to disposal site
- **Del Ray Beach, Florida** – Removed all vegetative storm debris from right-of-way; Hauled to disposal site; Reduced all vegetative debris by tub grinding; Hauled and disposed of ground mulch material
- **West Palm Beach, Florida** – Managed TDSR site; Reduced all vegetative storm debris by incineration and grinding
- **Hillsborough County, Florida** – Removed and disposed of all eligible storm-generated debris from within municipal right-of-way; Set-up, maintained and operated TDSR sites including separation and reduction by grinding all vegetative debris; Hauled mulch to landfill
- **Pensacola, Florida and Escambia County, Florida** – Removed and disposed of eligible storm-generated debris from within municipal right-of-way; Maintained and operated six TDSR sites including separation and reduction by grinding all vegetative debris; Hauled mulch to landfill

# QUALIFICATIONS AND EXPERIENCE

## KEY PERSONNEL

### AVAILABLE WORK FORCE

The principals and officers of Cycle D&J Emergency Response JV know that the company's employees are its most dynamic asset. Special attention is given to management supervision and the training and development of its individuals. The company's employees are subject to retraining and refresher courses whenever available in each skilled discipline. Its supervisors, project managers, engineers and foremen annually take training and/or refresher courses in management practices, ethics and environmental policies, regulations and procedures. Operators are always supervised and when appropriate, trained on the safety, maintenance and operational limits and capabilities of new or upgraded equipment. Drivers are required to be safety trained and independently licensed before they are allowed to operate vehicles and their performances are reviewed daily.

Cycle D&J Emergency Response JV current database contains a listing of 492 employees available for disaster response. This database includes 223 full-time current employees, and 314 experienced reserve personnel on call to Cycle D&J Emergency Response JV.

## PRINCIPALS

### **Jonathan N. Kernion (Cycle, President and Chief Executive Officer)**

Jonathan Kernion is a graduate of the Freeman School of Business at Tulane University, where he earned an MBA degree and orchestrates the daily operations. His previous experience includes ownership and operation of three construction and demolition landfills under the business name of Cycle, Inc., as well as project management and estimating for Durr Heavy Construction throughout the 1990's, Circle, Inc. during the late 1980's, and Kernion Equipment Company in the late 1970's and early 1980's. In his positions at these firms, he facilitated all public works projects, including many with the United States Army Corps of Engineers, US Navy, LADOTD, FEMA, and many other municipalities. He has been involved with and responded to natural disasters since 1979, when Hurricane Frederic devastated Mobile, AL. He is our firm's qualifying party with the Louisiana Licensing Board and holds a LA DEQ Solid Waste Operators Class C.1 Level A Certification. He is an active member with the Louisiana Associated General Contractors, where he serves on the Board of Directors.

### **Nathan Kernion (Cycle, Executive Vice President and Chief Operating Officer)**

Nathan holds a BA in Economics from Southeastern Louisiana University and an MBA from Tulane University. He is responsible for the day to day operations for all construction activities. His duties include managing our estimators and project managers, capital, and equipment resources in the production of quality goods and services while ensuring that company operations are efficient and effective through the use of detailed planning and scheduling. Nathan has estimated and served as project manager on numerous civil construction and emergency response projects. His experience includes numerous construction and emergency projects for the US Army Corps of Engineers, FEMA, LADOTD and various municipalities. He is extremely knowledgeable in public construction rules and regulations.

### **Kevin Kernion (Cycle, Executive Vice President and Chief Administrative Officer)**

Kevin is a former United States Marine who served two tours of duty in Afghanistan in Operation Enduring Freedom. Kevin attended Southeastern Louisiana University and currently completing a MBA from Tulane University. In his day-to-day role, Kevin supervises Cycle's administrative functions including health and safety, human resources, information technology, and accounting. Kevin has served in operational roles on many disaster response contracts and has an immense amount of training in emergency planning and response from his military career.

### **Richard D. Starr (D&J, President, and Chief Executive Officer)**

After attending Troy State University, Richard "Dick" Starr joined his father in Starr and Sons Contractors where he has continued working in the construction industry, serving in the roles of employee supervision, job oversight, budgeting, risk evaluation, administration and financial management in the construction related fields of road construction, grading, paving, utilities and natural disaster and debris management. In 1987, he and his brother James L. Starr formed D & J Enterprises, Inc. for the purpose of purchasing and continuing the business activities of Starr & Sons Contractors.

### **James L. Starr (D&J, Secretary/Treasurer, Chief Operating Officer, and Director of Disaster Operations)**

After receiving his Bachelor Degree in Civil Engineering from Auburn University in 1971, James L. "Jimmy" Starr continued working with his family-owned company Starr and Sons Contractors where he has been instrumental serving as estimating engineer, providing job progress and quality assurance reporting, scope

# QUALIFICATIONS AND EXPERIENCE

of work evaluation, change orders and contract modifications, and compliance reporting in the construction related fields of road construction, grading, paving and utilities and natural disaster and debris management. In addition to his duties in these fields, he is the Director of Disaster Operations for the company's disaster response/debris management division, which has responded to over 200 natural disaster events. In 1987, he and his brother Richard D. Starr formed D & J Enterprises, Inc. for the purpose of purchasing and continuing the business activities of Starr & Sons Contractors. Since 1970, he has been involved in the oversight and supervision of over 500 successfully completed projects totaling more than \$400,000,000.

## PROJECT MANAGEMENT

### **Christopher M. Starr (D&J, Vice President)**

Christopher "Chip" Starr has worked extensively in all areas of field operations with D & J Enterprises, Inc. since 1995. He started in the family business "hands on" in field operations and advanced through the ranks serving in many capacities including Equipment Operator, Truck Driver, Crew Foreman, Safety Officer, Quality Assurance Officer, and Project Manager. He has received course certifications in "National Environmental Consortium (NEC) 1005: Environmental Compliance and Management, Environmental Compliance" and "ANSI-RAB NAP Accredited EMS Lead Auditor Course".

### **Terry Sony (Cycle, Vice President, Project Management)**

Mr. Sony performs construction management duties including: specifying project objectives and plans including delineation of scope, budgeting, scheduling, setting performance requirements, and selecting project participants, maximizing resource efficiency through procurement of labor, materials and equipment, implementing various operations through proper coordination and control of planning, estimating, contracting and construction in the entire process, and developing effective communications and mechanisms for resolving conflicts

### **Jason Sanders (D&J, Emergency Operations Manager)**

Jason Sanders was hired in 2002 as the Office Administrator. His roles quickly expanded and he is now an integral part of the D&J's Emergency Operations Division. Having taken many FEMA Continuing Education Courses, Jason is familiar with complex FEMA policies. During the long and complicated Hurricane Rita mission, Jason oversaw the creation of a comprehensive debris management database system that has cutting edge technology for tracking data for large projects. As the Accountant responsible for all emergency operations projects, his attention to detail for an ever-changing business has made Jason a valuable asset to our company.

### **Danny King (Cycle, Emergency Operations Manager)**

Mr. King's duties include management and coordination of all in-house field staff (operators, carpenters, skilled tradesmen, and laborers). He has managed a variety of projects through the years, ranging from debris management, heavy civil construction to heavy industrial. Mr. King holds many quality assurance certifications from various area chemical plant. Mr. King is a certified welder with experience in process piping, structural pipe, structural concrete and structural steel. His experience as a fitter includes process piping, structural pipe and structural steel, sandblasting and protective paint coating galvanizing applications. His rigging experience includes small and large operations including rigging with multi-parted lines to utilize structural supports for moving small objects, or heavy rigging to make major lifts, including multi-crane lifts. His civil experience includes tank foundations, pump foundations, structural steel erection, structural concrete, subsurface piping, excavation, directional road boring, levee construction, limestone roadways, and general site preparation.

### **William Liveoak (D&J, Project Manager)**

William Liveoak earned a Bachelor of Science degree in Civil Engineering from Auburn University in 1999 and immediately began working with D & J Enterprises' Engineering Department, assisting in the fields of estimating, quality assurance, ordering inwrought materials, invoicing projects and daily involvement with job coordination. He has received course certifications in "National Environmental Consortium (NEC) 1005: Environmental Compliance and Management, Environmental Compliance and Ethics (NEC 9031)" and in "Environmental/Business Policy, Compliance, and Ethics: Principles and Practices".

### **RW Small (Cycle, Project Manager)**

Mr. Small performs project management duties and has an abundance of debris removal experience from his work both with Cycle and Ceres Environmental. During the Hurricane Katrina event Mr. Small, mobilized and managed over 170 right of entry crews, coordinated the removal of over 2 million yards of hurricane related debris in six municipalities in St. Tammany Parish, managed demolition of over 150 C&D and asbestos

# QUALIFICATIONS AND EXPERIENCE

containing structures, coordinated the pick-up and disposal of 50,000 white goods from the public right-of-way, supervised the distribution of over 20,000 work orders for temporary roofs in over 30 counties in Mississippi.

## **Paul D. Bridge (D&J, Project Supervisor)**

Paul Bridge contributes over 28 years of diversified experience in the construction industry to D&J Enterprises. His formal training and studies include Engineering at Tufts University and MIT in Boston, Business Management at Palomar College in San Diego, Computerized Construction Estimating & Management with Muir Training Technologies in San Diego, Computerized Asbestos Estimating at Georgia Institute of Technology in Atlanta, Asbestos Abatement Supervision (certification received from Mayhew Environmental Training Associates, Tampa), and refresher courses in Asbestos Abatement supervision at Retra Training Services in Tarpon Springs. Projects performed while he served as Project Manager include the following governmental offices and private companies: USACE, Department of the Air Force, Federal Aviation Administration, Federal Bureau of Prisons, Lockheed Space Operations Company, VA Medical Center, Martin Marietta Corporation, NASA, Pinellas County, Florida, U.S. Coast Guard and the U.S. Postal Service.

## **Jackie Hickman (D&J, Project Supervisor)**

Jackie Hickman has been with D & J Enterprises, Inc. since 1987 as an Equipment Operator, Class A Truck Driver, Crew Foreman, Project supervisor, Grinding Crew Foreman, Incineration Crew Foreman, Site Manager, Pick-Up Crew Foreman, and Senior Project Manager. He has worked on over 30 FEMA-funded disaster response projects and is certified in "National Environmental Consortium (NEC) 1005: Environmental Compliance and Management, Environmental Compliance".

## **Jared King (Cycle, Safety Director)**

Mr. King is the company's safety director and is responsible for the development and implementation of all safety procedures. Mr. King holds a Bachelor of Science Degree in Petroleum Services and Safety Technology. He is familiar with OSHA guidelines and the United States Army Corps of Engineers EM 385 handbook. Mr. King also hold certification from the American Red Cross that allows him to teach various courses in-house including OSHA 30, First Aid, and CPR among others.

## **Albert Carter (Cycle, Site Safety Health Manager)**

Mr. Carter has been employed with Cycle since 2005. Mr. Carter performs as Site Safety Health Manager. He is responsible for the implementation of Cycle's Safety Program for the proposed project, including the implementation of the project's Site Specific Accident Prevention Plans (APP). In addition, he also oversees and can authorize the procurement of project safety supplies and equipment, and is responsible for the implementation of the site safety training of Cycle employees and subcontractor safety training. Mr. Carter is responsible for the daily administration of the safety programs for the duration of the project. Mr. Carter is a certified by the US Army Corps of Engineers in Construction Quality Management for Contractors, OSHA 10 HR, OSHA 30 HR, First Aid/CPR, and has training in Trenching and Excavation.

## EQUIPMENT MAINTENANCE AND MANAGEMENT

### **Oscar Hardee (D&J, Senior Equipment Manager)**

Oscar Hardee has been involved in the road construction equipment maintenance and heavy equipment repair since 1984. He is certified in diesel mechanics and is responsible for the maintenance and repairs of over 200 pieces of heavy equipment. His duties also include the supervision of 13 mechanics, a parts warehouse and parts inventory management system. He is SGS Certified as well as having received course certifications in "National Environmental Consortium (NEC) 1005: Environmental Compliance and Management, Environmental Compliance".

### **Lynn Tapley (D&J, Dispatcher)**

Lynn Tapley has spent over 10 years in the Trucking and Dispatching Division of D & J Enterprises, Inc. and holds a Commercial Class A License. He attended a two-year training course in automobile mechanics at Alexander City Junior College and has received a Federal Motor Carrier Safety Regulations Certificate. Other roles that he has performed for the company include Equipment Operator, Truck Driver and Dispatcher. He has also participated in disaster related projects on Hurricanes Andrew, Opal, Bertha, Fran, Brett and Floyd, and on ice storms in Georgia, Arkansas, Alabama and Mississippi.

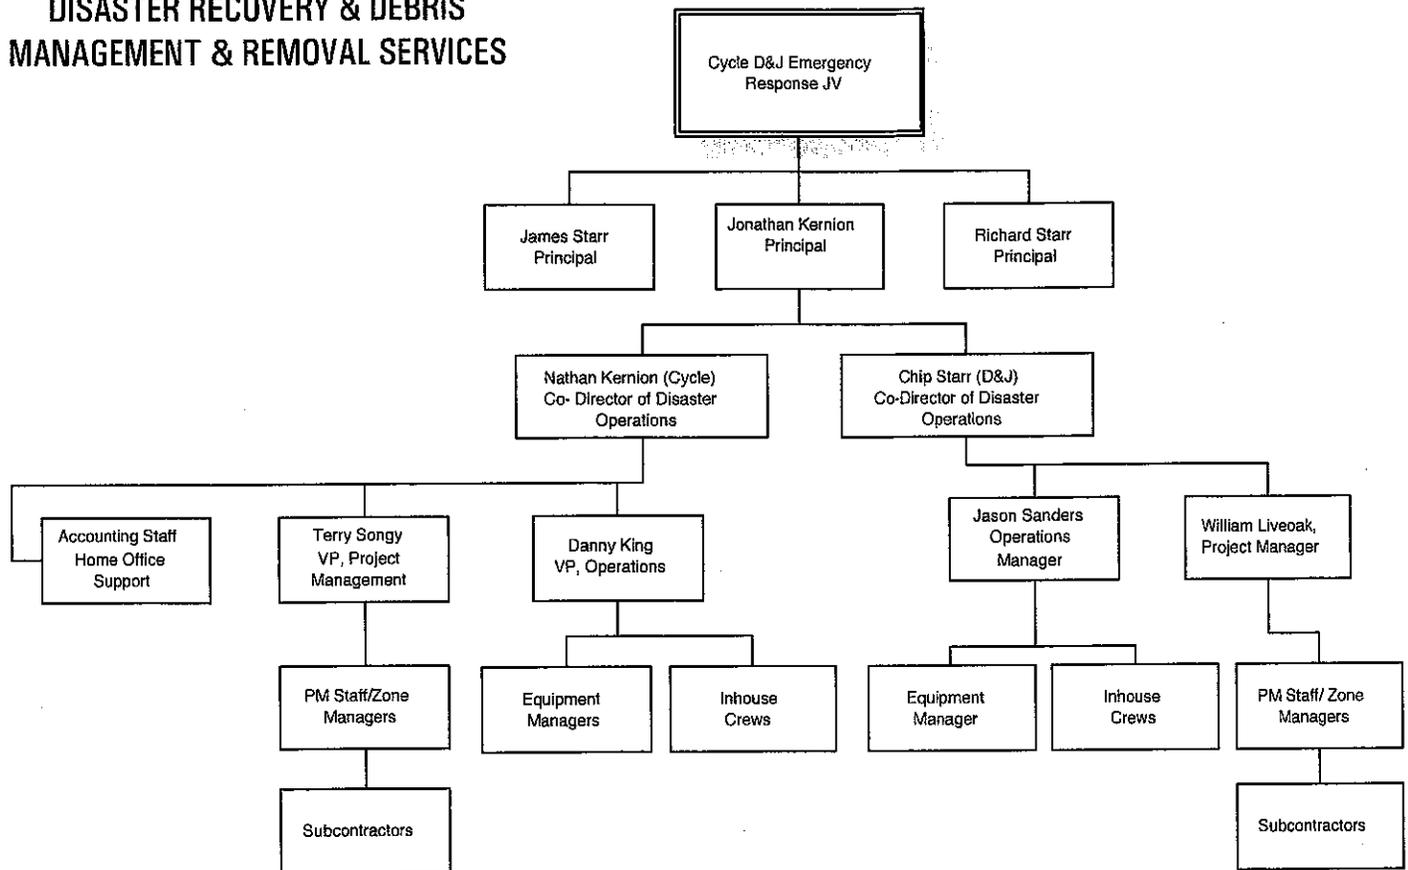

# CAPACITY FOR TIMELY COMPLETION OF THE PROJECT

# CAPACITY FOR TIMELY COMPLETION

## ORGANIZATIONAL CHART

### CITY OF CENTRAL DISASTER RECOVERY & DEBRIS MANAGEMENT & REMOVAL SERVICES

## REASONABLE ASSURANCE OF ABILITY TO WORK ON THIS PROJECT.

Cycle is a local based company with headquarters located in the City of Kenner. We have a strong local knowledge and commitment to restore the area to pre-event conditions. Our sizable fleet and staff of 100 local employees, provide a significant first tier response group ideally suited for this contract.

In addition to Cycle D&J Emergency Response JV's company-owned equipment and manpower resources, the principals of Cycle D&J Emergency Response JV have developed a strong alliance with many smaller contractors over the past 30 years of performing Disaster Response/Debris Management projects throughout the United States. These contractors have each worked for us because of the company's reputation for accurate record keeping and prompt payment, many have a "first call" commitment to respond to our group.

This allows Cycle D&J Emergency Response JV a greater advantage in being able to respond quickly and also in its ability to organize a larger workforce by utilizing its own extensive equipment and manpower resources coupled with its relationship with over 340 experienced debris removal and reduction subcontractors representing hundreds of pieces of loading and reduction equipment and over 1,000 haul trucks.
